Supported Regions

Effective 22 Nov 2026 Version 1.0 For everyone

The short version

- Electron Hub is available worldwide, except where sanctions or the law forbid it.
- Some models, payment methods and phone verification are not available everywhere.
- Don't use a VPN to reach what isn't offered where you are.

This summary helps you find your way. The full text below is what applies.

1. Where the Service is available

Electron Hub is available worldwide, except in countries and regions subject to comprehensive sanctions under the laws that apply to us, and to people on government sanctions or restricted-party lists (Terms Section 2.2).

2. What varies by region

- **Models.** Some Model Providers do not offer their Models, or some of their features, in every country, and some only allow paid use in the EEA, UK or Switzerland. Such Models may be unavailable or limited where you are.
- **Payment methods.** Each payment provider supports its own countries and currencies. The methods you can use are shown at checkout.
- **Phone verification.** Phone verification is not currently available for numbers from Russia, Indonesia or Malaysia, and VoIP numbers are not accepted.

3. No location masking

You may not use a VPN, proxy or other means to hide your location in order to reach a Model, plan or payment method that is not offered where you are (Terms Section 2.2).

4. Changes

Availability changes with the law, our providers and our own decisions. We update this page when it does.
